Subject: Theodore Sprink Reference Letter

To whom it may concern:

I am the vice-president and a principal owner of SDSE, a Structural Engineering consulting firm in San Diego, CA. On more than one occasion, Ted Sprink has generously provided himself as a sounding board and offered ideas relative to my company's marketing and positioning in our marketplace. Through our discussions, I believe Ted's insight has been an asset which has helped to contribute to the good position my company currently enjoys during this down economy.

On both a personal and professional basis I have been well acquainted with Ted for more than 34 years. Our families have been friends and contemporaries. During this time I have found Ted in his career to be extremely well focused and passionate, entrepreneurial, outstanding in vision, strong in networking, goal oriented, assertive, and highly motivated to be recognized for excellence. His leadership characteristics have been consistent in success throughout the long period that I have known him in both his life and career.

Sincerely,

SDSE

A handwritten signature in blue ink that reads "Christopher Kamp". The signature is written in a cursive, flowing style.

Christopher Kamp, S.E.  
Vice-President
